laws applicable thereto, by an ordinance of the Town heretofore adopted by the Town Council thereof on June 17, 1957 and entitled: "Ordinance appropriating \$2,922,000 for school purposes and authorizing the issuance of school bonds of the Town of Bloomfield, in the County of Essex, New Jersey, to meet said appropriation".

(B) Said ordinance authorizes bonds which are to be issued for financing the cost of construction of a new junior high school, and the maximum period prescribed by Chapter 6 of said Title 18 within which said bonds are required to mature, and as determined in said ordinance, is 30 years, being a period not exceeding the period assigned by section 18:6-66 of said Title 18 to the purposes for which said bonds are to be issued.

(C) The applicant believes that provision for the retirement of said bonds within a period of 21 years from date thereof rather than the retirement of said bonds over any longer period of years (which would be permitted by the provisions of Chapter 6 of said Title 18) will cause said Town to secure a lower rate of interest upon the sale of said bonds, and that it is in the interest of sound financial practice to (a) secure such a lower rate of interest with respect to said bonds (b) save the additional amount of interest which would be required to be paid on said bonds if said bonds were to be retired over a period of years longer than 21 years, and (c) reduce the aggregate levy of ad valorem taxes upon the taxable property within said Town which would otherwise be required for the retirement of said bonds over said longer period of years.

(D) It is the belief of the applicant that the application to said \$2,642,000 School Bonds of the limits on the

amounts of annual installments of said bonds prescribed by Chapter 6 of said Title 18 would adversely affect the financial position of the Town of Bloomfield in that it would require for the payment of said bonds substantially uneven amounts to be raised in each of such years by the levy of ad valorem taxes upon all the taxable property within said Town for the payment of the principal of and interest on bonds of the Town heretofore issued and other bonds of the Town to be hereafter issued, whereas, if the Local Government Board shall fix (as hereinafter prayed for) annual installments of said bonds of \$55,000 in each of the years 1961 to 1963, both inclusive, \$60,000 in 1964, \$65,000 in each of the years 1965 to 1967, both inclusive, \$120,000 in the year 1968, \$125,000 in the year 1969, \$175,000 in the year 1970, \$180,000 in each of the years 1971 to 1978, both inclusive, \$179,000 in the year 1979, and \$183,000 in the year 1980, the amounts to be raised in each of such years by the levy of ad valorem taxes upon all the taxable property within said Town on account of the retirement of the principal of said bonds and other bonds now outstanding and proposed to be issued and the payment of interest thereon would be substantially equal in each of such years.

(E) The present debt service requirements of the Town of Bloomfield and the maturities of \$621,000 School Bonds and \$155,000 Parking Bonds of 1960 of the Town proposed to be issued and of the said \$2,642,000 School Bonds are in each instance as set forth in Schedule X hereto attached and by this reference made a part hereof.

(F) It is therefore prayed and requested that the Local Government Board, after consultation with the Commissioner

of Education, approve the following maturities and amounts of the annual installments of said proposed issue of \$2,642,000 School Bonds which are as follows:

<u>Years (inclusive) in which said bonds shall mature</u>	<u>Amount</u>
1961 to 1963	\$ 55,000
1964	60,000
1965 to 1967	65,000

1971 to 1978	180,000
1979	179,000
1980	183,000

and cause its approval to be endorsed upon a copy of this application.

Respectfully submitted under
date of January 4, 1960

The Town Council of the Town
of Bloomfield, in the County

Mr. Fisher remarked that he was tendering his resignation as Councilmanic Representative of the Board of School Estimate because of his inability to attend a meeting to be held this month, as he will be out of State, and he felt it necessary that the Board be at full strength for its meetings.

Mayor Steinmann remarked that he accepted the resignation of Mr. Fisher and appointed in his place, as Councilmanic Representative of the Board of School Estimate, Jack J. Soriano.

Mr. Lintott submitted the following ordinance on first reading entitled:

AN ORDINANCE TO AMEND ARTICLE 4 OF (Administrative
THE ADMINISTRATIVE CODE OF THE TOWN Code Amendment
OF BLOOMFIELD EFFECTIVE JULY 16, 1956. Law Department)

which title was read by Mr. Lintott.

Mr. Fisher requested that his remarks be recorded in the minutes.

Mayor Steinmann remarked that in the absence of any objection by the Town Council, the Councilman's remarks would be recorded in the minutes.

Mr. Fisher remarked that the purpose of the ordinance was to re-organize the Department of Law so that in the future the Town would have a Town Attorney and an Assistant Town Attorney, which practice was followed in other communities.

Mr. Fisher further remarked that this particular ordinance represents a novel approach; in that the ordinance tries to divide the work specifically between two people, a Town Attorney and an Assistant Town Attorney; whereas, ordinarily an ordinance would provide that all matters referred to in the ordinance would be handled by the individual or

individuals subsequently appointed, but this ordinance does not allow this, in that it does not provide a method of deciding which member of the Department of Law is to handle those duties not specified.

Mr. Fisher further remarked that if you can divide duties of the Town Attorney by resolution, as the ordinance indicates, you should not need any ordinance at all, but rather legislate by resolution.

Mr. Fisher remarked that for the reasons indicated, he is objecting to the ordinance.

Mr. Fisher further remarked that a postscript on the ordinance in question reads "The foregoing ordinance was prepared in accordance with directive issued at the conference of January 25, 1960", and that this is not a postscript appended to other ordinances and he wondered whether the Town Attorney is in agreement with the directives of the Town Council.

On motion of Mr. Lintott, seconded by Mr. Russoman, the above ordinance was passed on first reading by the following vote: Messrs. Lintott, Schmidt, Schroeder, Russoman, Soriano and Steinmann voting "aye". Mr. Fisher voting "nay".

DUTIES AND QUALIFICATIONS AND FIXING
SALARIES ADOPTED JULY 21, 1941',
TOGETHER WITH THE AMENDMENTS THEREOF
AND SUPPLEMENTS THERETO".

(Salary Ordinance
Amendment
Law Department)

which title was read by Mr. Schmidt.

Mr. Soriano remarked he was opposed to the ordinance on the basis that the total salary is too high and that a starting salary on a new project should be less, and that he is voting no on the ordinance.

Mr. Fisher remarked he was opposed to the ordinance, in that it reads "The annual salaries herein stated are in lieu of all fees for professional services rendered", and since there is litigation pending, there will be charges in connection with this litigation. For the reasons indicated, he is voting no on the ordinance.

On motion of Mr. Schmidt, seconded by Mr. Lintott, the above ordinance was passed on first reading by the following vote: Messrs. Lintott, Schmidt, Schroeder, Russoman and Steinmann voting "aye". Messrs. Fisher and Soriano voting "nay".

Salary-Wage increases amount to \$100,118.50, will provide for permissive pay increments, full years' pay for new policemen and firemen added in 1959, two parking violations officers and two additional employees in the Division of Revenue for a portion of 1960. A proposed wage adjustment of \$225. accounts for \$55,900. of the above increase.

The above increases are offset by an increase of \$55,670.00 in Miscellaneous Anticipated Revenues in 1960 which will be reflected in the amount to be raised by taxes for municipal purposes.

Explanation of Appropriations for "Other Expenses"

The amounts appropriated under the title of "Other Expenses" are for operating costs other than "Salaries and Wages."

Material, supplies and nonbondable equipment.

Repairs and maintenance of buildings, equipment, roads, etc.

Contractual services for garbage and trash removal, etc.

Utilities, printing and advertising, insurance and many other items essential to the services rendered by municipal government.

The 1960 Budget as prepared shows appropriations for Town purposes totalling \$3,560,442.98, an increase of \$112,437.51 over the year 1959.

Salary-Wage increases amount to \$100,118.50, will provide for permissive pay increments, full years' pay for new policemen and firemen added in 1959, two parking violations officers and two additional employees in the Division of Revenue for a portion of 1960. A proposed wage adjustment of \$225. accounts for \$55,900. of the above increase.

Appropriations for Capital Improvements, Municipal and School Debt Service, Deferred Charges and Statutory Expenditures are \$534.15 less than in 1959.

The above increases are offset by an increase of \$55,670.00 in Miscellaneous Anticipated Revenues in 1960 which will be reflected in the amount to be raised by taxes for municipal purposes.

The Reserve for Uncollected Taxes in this Budget is computed at 91.82% and totals \$615,939.52.

WHEREAS, the Board of Education of the Town of Bloomfield

has requested the Town of Bloomfield to convey to it Town-owned lands identified on the Tax Maps of the Town of Bloomfield as Part of Lot 1, Block 541, Map 21, which lands are not needed for the public purposes of the Town of Bloomfield but which are required by the Board of Education of the Town of Bloomfield for school purposes as declared in a resolution of the Board of Education of the Town of Bloomfield dated June 16, 1960; and

WHEREAS, such a conveyance is permissible by virtue of the provisions of N.J.R.S. 40:60-39 et seq.;

NOW, THEREFORE, BE IT RESOLVED by the Town Council of the Town of Bloomfield, N.J.:

1 - It is found as a matter of fact that the lands and premises hereinafter described are not needed or required presently or in the foreseeable future for the public purposes of the Town of Bloomfield and it is in the best interest of the Town to grant and convey said lands and premises to the Board of Education of the Town of Bloomfield for school purposes, viz: Provide a well-rounded program of physical education, intramural and inter-scholastic athletics for the girls and boys of Bloomfield Senior High School.

2 - The Mayor is authorized to sign and the Clerk to attest and affix the seal of the Town to the deed of conveyance of the Town of Bloomfield to the Board of Education of the Town of Bloomfield agreeably to the request by resolution of the Board of Education adopted June 16, 1960, and recited in full as part of the minutes of this meeting of the Town Council. Said lot, tract or parcel of land is identified and described as follows:

That certain lot, tract or parcel of land presently owned by the Town of Bloomfield and appearing on the Tax Maps of Bloomfield as Part of Lot 1 in Block 541 on Map 21 and described as follows:

BEGINNING at the southerly property line of Board of Education known as Foley Field and the easterly line of the Essex County Canal Highway (formerly Morris Canal); thence (1) along said southerly property line South 80 degrees 12 minutes 30 seconds East 557.10 feet to the southwesterly corner of Division Street; thence (2) along the westerly property line of property fronting on Division Street and East Almira Street South 2 degrees 54 minutes 30 seconds West 236.50 feet to the southerly side of East Almira Street at its westerly dead-end; thence (3) along the southerly side of East Almira Street extended westerly North 80 degrees 13 minutes 30 seconds West 60 feet to approximate center line of the Third River; thence (4) along the approximate center line of Third River South 9 degrees 53 minutes 20 seconds East 324.92 feet to a point in the northerly line of Maple Street; thence (5) along the northerly line of Maple Street North 80 degrees 48 minutes 10 seconds West 296.53 feet to the easterly line of the Essex County Canal Highway; thence (6) along the easterly line of the Essex County Canal Highway North 18 degrees 29 minutes West 32.92 feet to an angle; thence (7) still along same North 25 degrees 12 minutes 30 seconds West 493.28 feet to an angle; thence (8) still along same North 12 degrees 12 minutes 30 seconds West 119.42 feet to the point and place of BEGINNING,

which motion was seconded by Mr. Russoman.

Mr. Soriano remarked that the area to the south of Foley Field was once a pond and had been filled in by the Public Works Department of the Town of Bloomfield. He further remarked that inasmuch as the area was the No. 1 site of the Town Engineer for a Town Maintenance Building, the area could have been divided to accommodate both another field for the Board of Education and a Town Maintenance Building.

Mr. Soriano remarked there was a need for a Maintenance Building and that the Foley Field south area was the best site,

because it is both an industrial area and an area central to the Town.

Mr. Soriano remarked that the second site proposed for the Maintenance Building was in the Gracel Street area, which again would put a Maintenance Building in a residential area, and the land that we own in this area could be better sold at public auction and bring in excess of \$100,000.

Mr. Lintott remarked that he concurred in the remarks of Mr. Soriano and disagrees with the language of the resolution relative to the need of the Board of Education.

Mr. Lintott further remarked that there was an equally important need for a Maintenance Building and instead of conveying 5.3 acres, the area could have been divided into 2.5 acres for the Board of Education and 2.8 acres for the Town of Bloomfield.

Mr. Lintott remarked that the entire tract is Town-owned, was acquired in 1952, the Zoning was right, the site was centrally located and there would be no necessity of acquiring any further land.

Mr. Schroeder remarked there was a definite need for a Maintenance Building and that one could be erected in the Gracel Street area.

Mr. Schroeder further remarked that no citizens had advocated Foley Field south be used for a Town Maintenance Building, while a great number had indicated that it be used for Board of Education purposes.

Mr. Schroeder remarked that the Board of Education use of this area was recommended by the Superintendent of Schools,

that there were inadequate facilities for the physical education program at the High School and that this area could be used for the program in double period sessions.

Mr. Russoman remarked that there was available land for a Town Maintenance Building to the south of the Foley Field south area, owned by Leonora Corporation, and that the sale of the Llewellyn Avenue Maintenance Building property would help pay for its acquisition.

Mr. Fisher remarked that there was only one site available to the Board of Education for the high school physical education program and there were several sites available for the Town Maintenance Building.

Mayor Steinmann remarked that he associated himself with the remarks of Mr. Fisher, in that the Foley Field south area was the area closest to the high school that was available.

Roll call vote showed the following: Messrs. Schroeder, Russoman, Fisher and Steinmann voting "aye". Messrs. Lintott and Soriano voting "nay". Mr. Schmidt absent.

Mr. Soriano moved the following resolution be adopted:

September 16, 1960

Mayor Walter S. Steinmann
Members of Town Council
Municipal Building
Bloomfield, New Jersey

Gentlemen:

At a meeting of the Local Assistance Board held Tuesday, September 13, 1960, with all members present, it was agreed that the Board express to the Town Council, for a matter of record, their objection to integration of General Assistance under the County Welfare Board as recommended by the Alexander Committee in their Report to the Governor of New Jersey.

The Board feels that the personal problems of our Bloomfield citizens would be disregarded and that they would be exposed to undue hardships under a County Welfare Board program. Aside from this, such a program would be more costly to Bloomfield as they would be sharing the expenditures of General Assistance for the larger municipalities having a costly General Assistance program.

The Local Assistance Board, therefore, respectfully proposes to the Mayor and Town Council that they consider a suitable plan of action in opposing integration of General Assistance under a County plan.

Yours very truly,

/s/ Ed Burnett

Edgar W. Burnett

WHEREAS, the Town of Bloomfield has repeatedly asked the New Jersey Highway Authority to consult and plan for traffic relief along the service road at the intersection of the same with Bloomfield Avenue, and with Franklin Street, public highways in Bloomfield; and

WHEREAS, the Town of Bloomfield has repeatedly asked New Jersey Highway Authority to provide additional exits from the Parkway south of Belleville Avenue, to readjust and relocate present facilities upon the Garden State Parkway, including the removal of its existing toll booths north of Belleville Avenue and to relocate the same at a point north of Watchung Avenue to more evenly distribute traffic along the public streets of the Town of Bloomfield in the interest of public safety, all of which may be done within the spirit, meaning and intent of the statute of New Jersey creating the New Jersey Highway Authority and authorizing the construction of the Garden State Parkway; and

WHEREAS, the Town of Bloomfield has listed by numerous resolutions heretofore adopted many other requests in the public interest, which New Jersey Highway Authority has not yet considered, or if considered, has ignored and has failed to execute; and

WHEREAS, it is found as a fact by the Town Council of

the Town of Bloomfield, N.J., that the cumulative requests of the Town of Bloomfield are in the public interest of the citizens of this State, and particularly the citizens, inhabitants and property owners of the Town of Bloomfield; and

WHEREAS, it is the opinion of the Town Council of the Town of Bloomfield, N.J., that a substantial measure of relief can be given to rectify the existing dangerous and hazardous conditions at a minimum risk of financial loss to the New Jersey Highway Authority, and without risk to the bondholders of bonds of New Jersey Highway Authority by the readjustment and relocation of present facilities upon and in connection with the operation of Garden State Parkway; and

WHEREAS, immediate action should be taken by New Jersey Highway Authority to comply with the repeated requests of the Town of Bloomfield in the interest of safety and the public welfare before any money is spent for the construction and erection of a new expensive administration building; and

WHEREAS, further study and consideration should be given to the possible merger of the New Jersey Highway Authority with the New Jersey Turnpike Authority, which, among other things, would eliminate the necessity of the construction and erection of the contemplated costly administration building by New Jersey Highway Authority;

NOW, THEREFORE, BE IT RESOLVED by the Town Council of the Town of Bloomfield, N.J.:

1. That New Jersey Highway Authority immediately suspend any further action and consideration with respect to the construction and erection of

its contemplated administration building at a cost of many thousands of dollars.

The Town Clerk read the following letter from Governor Robert B. Meyner:

Dear Mr. North:

I read with interest your governing body's resolution in respect to improvements along the Parkway contiguous to Bloomfield.

There has been a good deal of thought given to points of ingress and egress in your vicinity and, as a matter of fact, there has been considerable planning done although, as I understand it, as yet nothing has come off the drawing boards.

The officials of the Parkway are interested in solving the complexities referred to in your resolution.

As to the Parkway's plan for the construction of a building to house their various departments, it seems to me that such a plan has no bearing upon the aforementioned traffic problem.

You may be interested to know that at the present time the Garden State Parkway departments are so divided that they even have to make their contacts between towns rather than just between offices. Plans for the building are going ahead and we are looking forward to its completion at as early a date as possible.

Sincerely yours,

/s/ Robert B. Meyner
Governor

Mr. H. Joseph North,
Town Clerk,

Further, he remarked that there was no answer in the Governor's letter to the question posed in the resolution as to the merger of the Garden State Parkway Authority and the New Jersey Turnpike Authority.
